- English
- German
- Swiss-German

PROFESSIONAL PROFILE

I am a student from Zürich Switzerland. I am organized and hardworking with outstanding problem solving skills. I am able to quickly grasp new concepts and have multiple years of software experience in Photoshop, Blender, Lightroom CC and Premier Pro.

WORK EXPERIENCE

SYPT 2022

October 2021 - March 2022

Worked for six months on an IYPT (International Young Physics Tournament) problem in preparation for the Swiss Young Physics Tournament. I worked on the 13th problem "Candle Powered Turbine". I was in a group of three so we helped each other on our individual problems. Spent a lot late nights at school working on the physics problem.

The 2022 SYPT tournament was on the 26th/27th March, where my team and I made it into the finals and placed 3rd in Switzerland.
